- Data Center Virtualization

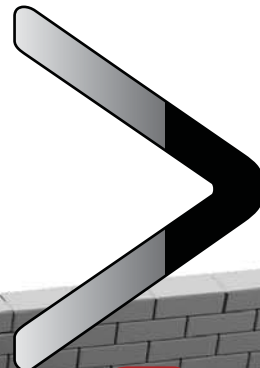

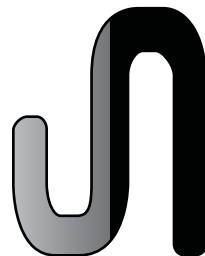

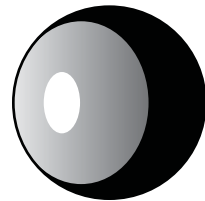

## PUSHING THE LIMITS

We built and operate the "Meta San" touted as "one of the world's largest storage area networks"  
Byte and Switch Magazine, 09/2007

"reVision, Inc. displays exceptional commitment to customer satisfaction and business-like concern for its customers' interest. In the process of introducing new technology and capabilities,...reVision has spent countless hours in meetings with customers to discuss requirements and educate the customers through training sessions"  
Pentagon, ITA Data Center

"You have turned concepts into reality and have brought us in-touch with technology we would most likely have never explored. Your creativity and professionalism through this process have been greatly valued and appreciated..."  
United States Geological Survey

"We routinely turn to reVision to help us implement new processes and to improve our existing processes to provide the highest quality service to our business users"  
Denver International Airport

## Dun & Bradstreet performance score of 91%

AECOM  
Bechtel Corporation, Los Alamos National Laboratory
